PROJECT PROFILE

PROJECT TYPE: PRIVATE

SUMMARY

This project would create a new skate park at Hedges Boyer Park to provide a newer, safer option for individuals to participate in skating, biking and scooter activities.

COMMUNITY NEED

The skate park in the avenues is older and this would provide an improved alternative for active recreation opportunities for local children.

TIMELINE

- Current Status: Project is in planning phase.
- Project will move forward contingent on:
 - Conversations and approval with City team around feasibility and location
 - Obtaining complete funds
 - Securing partner organizations
- Project timeline:
 - 2022: Proposed beginning of construction

BUDGET

TOTAL PROJECT COST: \$90,000-100,000

- Includes materials, equipment and labor to complete the project.
- Cost Breakdown:
 - Materials, equipment, construction: \$90-100,000
- Obtained so far: \$0

ONGOING EXPENSES & SUSTAINABILITY

- Maintenance for the statue would be minimal and could be covered by volunteers.

FUNDING SOURCES

- There is potential for some funding to come from the City Parks Budget in future years. Other sources could include Tiffin Community Foundation, National Machinery Foundation, private donors and corporations.

ATTACHMENTS

- Full application
- Information from proposed company, PumpTrax
